

Writing: using phonics to spell - Monday 11th – Friday 15th
January 2021

I would like the children to use what they already know, research using the internet, talk to an adult or read a book to find out some interesting facts about mini beasts this week. We are focusing this week on using our phonics to help us spell and finger spaces between words.

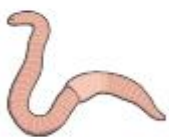

- ✓ **Finger spaces between each word.**
- ✓ **Phonics to helps us spell.**

The children can use the templates below or they can use paper that they have at home and draw pictures to go alongside their writing.

Please remember you can take pictures or email me their work so that I can mark and give feedback 😊

Thursday 14th January 2021

search the internet or read a book to find out some facts

My turn

➤ **I searched the internet for some butterfly facts.**

What is the lifecycle of a butterfly?

Butterflies have a lifecycle that has four different stages. The butterfly begins as an egg, which is laid on the plant that they will eat once they hatch.

➤ **I have written a sentence below.**

A butterfly begins as an egg.

➤ **Now it's your turn below**

3 - 2 - 1 on Butterflies

3 things I learned

1 _____

2 _____

3 _____

2 interesting facts

1 _____

2 _____

1 question I have

1 _____
