Plants (Year 5)	
Plants (Year 6)	

Maltese Road Primary School Progression of Skills Science

Knowledge Skills and Understanding	
Animals, including humans (EYFS)	<ul style="list-style-type: none"> • Can they talk about some of the things they have observed such as animals? • Can they show care and concern for living things and the environment? • Can they make observations of animals and plants and explain why some things occur, and talk about changes? (ELG) • Can they know about similarities and differences in relation to places, objects, materials and living things? (ELG)
Animals, including humans (Year 1)	<ul style="list-style-type: none"> • Can they point out some of the differences between different animals? • Can they sort photographs of living things and non-living things? • Can they identify and name a variety of common animals? (birds, fish, amphibians, reptiles, mammals, invertebrates) • Can they describe how an animal is suited to its environment? • Can they identify and name a variety of common animals that are carnivores, herbivores and omnivores? • Can they name the parts of the human body that they can see? • Can they draw & label basic parts of the human body? • Can they identify the main parts of the human body and link them to their senses? • Can they name the parts of an animal's body? • Can they name a range of domestic animals? • Can they classify animals by what they eat? (carnivore, herbivore, omnivore) • Can they compare the bodies of different animals? <p>Challenge</p> <ul style="list-style-type: none"> • Can they begin to classify animals according to a number of given criteria? • Can they point out differences between living things and non-living things? • Can they name some parts of the human body that cannot be seen? • Can they say why certain animals have certain characteristics? • Can they name a range of wild animals?
Animals, including humans (Year 2)	<ul style="list-style-type: none"> • Can they describe what animals need to survive? • Can they explain that animals grow and reproduce? • Can they explain why animals have offspring which grow into adults? • Can they describe the life cycle of some living things? (e.g. egg, chick, chicken) • Can they explain the basic needs of animals, including humans for survival? (water, food, air) • Can they describe why exercise, balanced diet and hygiene are important for humans? <p>Challenge</p>

Maltese Road Primary School Progression of Skills Science

	<ul style="list-style-type: none"> • Can they explain that animals reproduce in different ways?
Animals, including humans (Year 3)	<ul style="list-style-type: none"> • Can they explain the importance of a nutritionally balanced diet? • Can they describe how nutrients, water and oxygen are transported within animals and humans? • Can they identify that animals, including humans, cannot make their own food: they get nutrition from what they eat? • Can they describe and explain the skeletal system of a human? • Can they describe and explain the muscular system of a human? • Can they explain how the muscular and skeletal systems work together to create movement?
Animals, including humans (Year 4)	<ul style="list-style-type: none"> • Can they identify and name the basic parts of the digestive system in humans? • Can they describe the simple functions of the basic parts of the digestive system in humans? • Can they identify the simple function of different types of teeth in humans? • Can they compare the teeth of herbivores and carnivores? • Can they classify living things and non-living things by a number of characteristics that they have thought of? • Can they explain how people, weather and the environment can affect living things? <p>Challenge</p> <ul style="list-style-type: none"> • Can they explain how certain living things depend on one another to survive?
Animals, including humans (Year 5)	
Animals, including humans (Year 6)	<ul style="list-style-type: none"> • Can they identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood? • Can they recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function? • Can they describe the ways in which nutrients and water are transported within animals, including humans? • Can they describe changes as humans develop to old age? <p>Challenge</p> <ul style="list-style-type: none"> • Can they explore the work of medical pioneers, for example, William Harvey and Galen and recognise how much we have learnt about our bodies? • Can they compare the organ systems of humans to other animals? • Can they make a diagram of the human body and explain how different parts work and depend on one another? • Can they name the major organs in the human body? • Can they locate the major human organs? • Can they make a diagram that outlines the main parts of a body?

Maltese Road Primary School Progression of Skills Science

Knowledge Skills and Understanding

Everyday materials
(classifying and grouping)
(EYFS)

- Can they look closely at similarities, differences, patterns and change?
- Do they know about similarities and differences in relation to places, **objects, materials** and living things? (ELG)

Everyday materials
(classifying and grouping)
(Year 1)

- Can they distinguish between an object and the material from which it is made?
- Can they describe materials using their senses?
- Can they describe materials using their senses, using specific scientific words?
- Can they explain what material objects are made from?
- Can they explain why a material might be useful for a specific job?
- Can they name some different everyday materials? e.g. wood, plastic, metal, water and rock
- Can they sort materials into groups by a given criteria?
- Can they explain how solid shapes can be changed by squashing, bending, twisting and stretching?

Challenge

- Can they describe things that are similar and different between materials?

Classifying and grouping
materials/changing
materials
(Year 2)

- Can they describe the simple physical properties of a variety of everyday materials?
- Can they compare and group together a variety of materials based on their simple physical properties?
- Can they link colours to natural and man-made objects?
- Can they explore how the shapes of solid objects can be changed? (squashing, bending, twisting, stretching)
- Can they find out about people who developed useful new materials? (John Dunlop, Charles Macintosh, John McAdam)
- Can they identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses?

Challenge

- Can they describe the properties of different materials using words like, transparent or opaque, flexible, etc.?
- Can they sort materials into groups and say why they have sorted them in that way?
- Can they say which materials are natural and which are man-made?
- Can they explain how materials are changed by bending, twisting and stretching?
- Can they tell which materials cannot be changed back after being heated, cooled, bent, stretched or twisted?

Maltese Road Primary School Progression of Skills Science

Classifying and grouping materials/changing materials (Year 3)	
Classifying and grouping materials/changing materials (Year 4)	
Classifying and grouping materials/changing materials (Year 5)	<ul style="list-style-type: none"> • Can they compare and group together everyday materials on the basis of their properties, including hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets? • Can they explain how some materials dissolve in liquid to form a solution? • Can they describe how to recover a substance from a solution? • Can they use their knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving, evaporating? • Can they give reasons, based on evidence for comparative and fair tests for the particular uses of everyday materials, including metals wood and plastic? • Can they describe changes using scientific words? (evaporation, condensation) • Can they demonstrate that dissolving, mixing and changes of state are reversible changes? • Can they explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda? • Can they use the terms 'reversible' and 'irreversible'?
Classifying and grouping materials/changing materials (Year 6)	

Maltese Road Primary School Progression of Skills Science

Knowledge Skills and Understanding	
Rocks (EYFS)	
Rocks (Year 1)	
Rocks (Year 2)	
Rocks (Year 3)	<ul style="list-style-type: none"> Can they compare and group together different rocks on the basis of their appearance and simple physical properties? Can they describe and explain how different rocks can be useful to us? Can they describe and explain the differences between sedimentary and igneous rocks, considering the way they are formed? Can they describe in simple terms how fossils are formed when things that have lived are trapped within rock? Can they recognise that soils are made from rocks and organic matter? <p>Challenge</p> <ul style="list-style-type: none"> Can they classify igneous and sedimentary rocks? Can they begin to relate the properties of rocks with their uses?
Rocks (Year 4)	
Rocks (Year 5)	
Rocks (Year 6)

Light (EYFS)	
Light (Year 1)	
Light (Year 2)	
Light (Year 3)	<ul style="list-style-type: none">• Can they recognise that they need light in order to see things?• Can they recognise that dark is the absence of light?• Can they notice that light is reflected from surfaces?• Can they recognise that light from the sun can be dangerous and that there are ways to protect their eyes?• Can they recognise that shadows are formed when the light from a light source is blocked by a solid object?• Can they find patterns in the way that the size of shadows change?• Can they find simple patterns (or associations) e.g. the nearer the light source the larger the shadow. <p>Challenge</p> <ul style="list-style-type: none">• Can they explain why lights need to be bright or dimmer according to need?• Can they explain the difference between transparent, translucent and opaque?
Light (Year 4)	
Light (Year 5)	

Maltese Road Primary School Progression of Skills Science

Light (Year 6)

- Can they recognise that light appears to travel in straight lines?
- Can they use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye?
- Can they explain why their shadow changes when the light source is moved closer or further from the object?
- Can they explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes?
- Can they use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them?

Challenge

- Can they explain how different colours of light can be created?
- Can they use and explain how simple optical instruments work? (periscope, telescope, binoculars, mirror, magnifying glass, Newton's first reflecting telescope)
- Can they explore a range of phenomena, including rainbows, colours on soap bubbles, objects looking bent in water and coloured filters.
